

WorldSkills Competitions – Refrigeration and Air Conditioning

WorldSkills Australia influences, challenges and supports Australians to develop, recognise and promote skills excellence for a thriving economy. Its skills-based competitions operate at regional, national and international levels, and are aligned to the Australian Qualifications Framework.

The National Championship is Australia's biggest vocational education and excellence competition. Through these competitions, WorldSkills Australia creates a platform for students to showcase and benchmark their skills every 2 years on a regional, national and global stage competing against their industry peers from around the country and the world.

Since 1981, over 100,000 young Australians have participated in WorldSkills Australia events in over 60 trades and skills - from refrigeration and air conditioning to bricklaying and hairdressing to cyber security. WorldSkills Champions become industry leaders, mentors, business owners and contribute greatly to the economy and their local communities.

Every 2 years young Refrigeration and Air Conditioning apprentices and tradespersons complete in Regional Competitions with the winners given the opportunity to compete against each other at the National Competition, which is usually held in front of our industry at the Air-conditioning, Refrigeration and Building Services (ARBS) Exhibition with major sponsorship from Refrigerant Reclaim Australia (RRA), Kirby (Beijer Ref), ARBS Exhibition, Australian Refrigeration Council (ARC) and TAFE.

The winner of the National Competition is then usually selected by WorldSkills Australia to compete at the International Competition against other national winners from around the world.

Below is a list of Australia's Refrigeration and Air Conditioning International Competitors

Year	Competition Location	Competitor	Region	Result
1995	Lyon, France	Paul Pemberton	Illawarra, NSW	Medallion for Excellence
